

Exporting your Data from the CashCrunch 101 game.

At the end of every round you are able to export your data.

When you press the export button in the Monthly summary,

the data will be exported into an excel file. You will have the choice of where it is saved.

The heading of the file will be named after the month and year that you have exported from. For example April2015csv

Upon opening the exported file, you will see the following:
